Wash. DC 20554

Dear Sirs,

I'm writing to ask you not
to enact rules allowing control
of the media to pass into fewer and
fewer hands. This would harm
our democracy by not having a
variety of views available to
citizens. Minority views including
religious ones could not be heard.

Sincerely,

Anne Kennedy

To whom it may concern,

How the Broad casting

field has changed. I know a

few corporations own many radio

and TV stations. I feel here in

the Phoenix area (see Channel 8 and

radio 5 from, all are served from one

News Room. Not much News coverage

at all sounds alike. Guess this makes

things more profitable but does not serve

the listener as well. Am also very

concerned with the obscene and

negative language on TV. Our children

are grown. This doesn't help having one

grandchild now. Hope we can clean things up

To Whom It May Concern:

I am noticing with increasing alarm that the ownership of the media, i.e., newspapers, radio and TV stations, is becoming concentrated into fewer and fewer hands.

In a strong democracy, there need to be outlets for the expression of various opinions and beliefs. The concentration of the media into just a few hands will definitely hinder, if not totally eliminate, the means for the expression of diverse beliefs and views which are necessary to keep the citizens informed in a well-rounded manner.

Please insure that, through current and future laws, rules and regulations, the ownership of the various media is kept widely distributed.

Sincerely,

George Emodi
